Why You're Hungry An Hour After Eating

Talking Head · Yapping · Nutrition

FORMAT	LENGTH	CHANNEL	DM KEYWORD
Talking Head	30-45 sec	IG Feed + Meta Ads	FULL

01 THE HOOK

“Okay, real talk. If you eat a full meal and you're hungry again an hour later, that's not a willpower thing.”

ALTERNATE HOOKS · TEST THE FIRST 3 SECONDS

“The reason some meals keep you full for five hours and others for one.”

“Nobody explains this, so let me: why you're always hungry.”

02 CORE MESSAGE

Most of the time it comes down to two things missing from the meal: protein and fiber.

A bagel and a coffee? Basically no protein, barely any fiber. Your body burns through it fast, and an hour later it's asking for more.

Same amount of food, but with eggs or Greek yogurt and some fruit? Completely different morning.

So before you blame yourself for snacking, look at what was actually on the plate. Most people don't have a hunger problem. They have a meal-building problem.

I'm Nate, nutrition coach, and this is the first thing I look at with almost every new client.

03 CALL TO ACTION

“Send me a message with the word FULL and tell me what you usually eat in a day. I'll tell you the first thing I'd change.”

NUTRITION TALK · VIDEO SCRIPT

Should You Stop Eating After 7pm?

Talking Head · Yapping · Myth

FORMAT	LENGTH	CHANNEL	DM KEYWORD
Talking Head	30-45 sec	IG Feed + Meta Ads	LATE

01 THE HOOK

"I get asked this every week: 'Nate, should I stop eating after 7pm?' Here's my honest answer."

ALTERNATE HOOKS · TEST THE FIRST 3 SECONDS

"The 7pm rule is one of the most repeated nutrition myths out there."
"Eating late isn't the problem. This is."

02 CORE MESSAGE

Your body doesn't have a clock that turns food into something worse at 7:01.

What matters way more is how much you eat across the whole day, and what you eat.

Here's what I actually see: people who 'stop eating at 7' often barely eat during the day, get home starving, and then the rule falls apart at 9pm anyway.

If your schedule means dinner at 8:30, that's fine. Eat enough earlier in the day, make dinner a real meal, and the late-night grazing usually takes care of itself.

I'm Nate, nutrition coach. I'd rather give my clients a plan that fits their schedule than a rule that fights it.

03 CALL TO ACTION

"Send me a message with the word LATE and tell me what time you usually eat dinner. I'll tell you how I'd set up your day around it."

Your Cravings Are Trying To Tell You Something

Talking Head · Yapping · Nutrition

FORMAT	LENGTH	CHANNEL	DM KEYWORD
Talking Head	30-45 sec	IG Feed + Meta Ads	CRAVINGS

01 THE HOOK

"Cravings aren't a character flaw. Most of the time, they're a signal."

ALTERNATE HOOKS · TEST THE FIRST 3 SECONDS

"If sweets call your name every night, listen to this first."
"Three reasons cravings hit harder than they should, and none of them is willpower."

02 CORE MESSAGE

When clients tell me their cravings are out of control, I usually find one of three things.

One: they're not eating enough during the day, so by night their body is basically yelling for quick energy.

Two: they're running on bad sleep. Short nights make sweet and salty food a lot harder to say no to.

Three: they've banned a food completely. And the moment something is off limits, it's all you can think about.

Fix those three, and cravings usually get quieter on their own. No white-knuckling required.

I'm Nate, nutrition coach, and this is a big part of what I work on with my clients.

03 CALL TO ACTION

"Send me a message with the word CRAVINGS and tell me when they hit you the hardest. I'll tell you what I'd look at first."

The Snack Mistake Almost Everyone Makes

Talking Head · Yapping · Nutrition

FORMAT	LENGTH	CHANNEL	DM KEYWORD
Talking Head	25-40 sec	IG Feed + Meta Ads	SNACK

01 THE HOOK

“Most people don't have a snacking problem. They have a snack-choosing problem.”

ALTERNATE HOOKS · TEST THE FIRST 3 SECONDS

“If your afternoon snack is gone in 30 minutes, this is why.”
“The one thing that turns a snack into something that actually holds you.”

02 CORE MESSAGE

Here's the mistake: the snack is just carbs on their own. Crackers, a granola bar, a bag of chips. Nothing wrong with them, but they don't last.

What I teach my clients is simple: every snack gets a protein and a fiber.

So instead of just crackers, crackers with cheese. Instead of just an apple, an apple with a cheese stick or some peanut butter.

It's a tiny change, but it's usually the difference between making it to dinner and raiding the pantry at 4pm.

I'm Nate, nutrition coach. Small fixes like this add up faster than any diet.

03 CALL TO ACTION

“Send me a message with the word SNACK and tell me what you usually grab in the afternoon. I'll give you a better version of it.”

Add, Don't Subtract

Talking Head · Yapping · Mindset + Nutrition

FORMAT	LENGTH	CHANNEL	DM KEYWORD
Talking Head	25-40 sec	IG Feed + Meta Ads	ADD

01 THE HOOK

“The fastest way to eat better isn't removing foods. It's adding them.”

ALTERNATE HOOKS · TEST THE FIRST 3 SECONDS

“Every diet starts with a list of what you can't eat. That's exactly why they end.”
“My clients don't give up their favorite meals. Here's what they do instead.”

02 CORE MESSAGE

Think about every diet you've tried. It started with a list: no carbs, no sugar, no eating out. And it lasted until the first stressful week.

I do the opposite with my clients. We keep what they already eat, and we add to it.

Pizza night stays. We just add a big salad next to it. Pasta stays. We add some protein to it.

When you're not losing anything, there's nothing to rebel against. That's why it sticks.

I'm Nate, nutrition coach. Nothing is off the table with me. We just make the plate work harder.

03 CALL TO ACTION

“Send me a message with the word ADD and tell me your favorite meal. I'll show you how I'd keep it in your week.”
