The Hand Portion Rule

Talking Head + B-roll · Nutrition tip

FORMAT	LENGTH	CHANNEL	DM KEYWORD
Talking Head + B-roll	30-40 sec	IG Feed + Meta Ads	PLATE

01 THE HOOK

"You don't need a food scale. You already have one at the end of your arm."

ALTERNATE HOOKS · TEST THE FIRST 3 SECONDS

"The easiest way to build a balanced plate, anywhere, in 5 seconds."
"No counting, no apps. Here's how my clients portion every meal."

02 CORE MESSAGE

Protein: one palm. Chicken, fish, eggs, Greek yogurt, tofu.

Veggies: one fist, or two if you can. Raw, roasted, frozen, it all counts.

Carbs: one cupped hand. Rice, potatoes, pasta, fruit, bread.

Fats: one thumb. Olive oil, avocado, cheese, nuts.

That's it. It works at home, at a restaurant or at a work lunch, and your hands come with you everywhere.

I'm Nate, nutrition coach. This is the first thing I teach clients who are tired of weighing and logging every bite.

The Nutrient Almost Nobody Gets Enough Of

Educational · Nutrition tip

FORMAT	LENGTH	CHANNEL	DM KEYWORD
Educational	30-40 sec	IG Feed + Meta Ads	FIBER

01 THE HOOK

“Hungry an hour after eating? Look at this before you blame yourself.”

ALTERNATE HOOKS · TEST THE FIRST 3 SECONDS

“Most adults get about half the fiber they need. Here's the easy fix.”
“It's not protein. It's the other thing that keeps you full.”

02 CORE MESSAGE

Fiber. Most adults get roughly half of what they need every day, and it's one of the biggest reasons meals don't keep you full.

The fix is small additions, not a new diet:

Berries or chia in your yogurt. Beans or lentils in your bowl. Oats instead of cereal. A piece of fruit with lunch.

Add it slowly and drink water with it, so your stomach has time to adjust.

I'm Nate, nutrition coach. When clients tell me they're hungry all the time, this is one of the first places I look.

How To Build A Snack That Actually Holds You

Talking Head + B-roll · Nutrition tip

FORMAT	LENGTH	CHANNEL	DM KEYWORD
Talking Head + B-roll	25-35 sec	IG Feed + Meta Ads	SNACK

01 THE HOOK

“A snack that leaves you hungry 30 minutes later isn't a snack. It's a warm-up.”

ALTERNATE HOOKS · TEST THE FIRST 3 SECONDS

“The 2-part snack formula my clients use every afternoon.”
“Why the 3pm snack doesn't work, and the one change that fixes it.”

02 CORE MESSAGE

Most snacks are just carbs on their own: crackers, a granola bar, chips. They're gone fast, and so is the energy.

The formula is simple: one protein plus one fiber.

An apple and a cheese stick. Greek yogurt and berries. Hummus and baby carrots. Turkey slices and a handful of grapes.

Protein keeps you full, fiber slows it all down, and together they get you to dinner without raiding the pantry.

I'm Nate, nutrition coach. Fixing the afternoon snack is one of the fastest wins I see with busy clients.

Meal Prep Without Spending Your Whole Sunday

Kitchen Demo · Nutrition tip

FORMAT	LENGTH	CHANNEL	DM KEYWORD
Kitchen Demo	35-45 sec	IG Feed + Meta Ads	PREP

01 THE HOOK

“Stop meal prepping meals. Prep ingredients instead.”

ALTERNATE HOOKS · TEST THE FIRST 3 SECONDS

“30 minutes on Sunday. Easy lunches all week. Here's the system.”
“Why most people quit meal prep by week two, and what to do instead.”

02 CORE MESSAGE

Eating the same chicken and rice five days in a row is why most people quit meal prep.

So don't cook meals. Cook building blocks:

Two proteins, like chicken thighs and ground turkey. One carb, like rice or potatoes. One tray of roasted veggies. One sauce you actually love.

Then every day you mix them differently: a bowl on Monday, tacos on Tuesday, a wrap on Wednesday. Same 30 minutes of work, a different meal every day.

I'm Nate, nutrition coach. This is how my clients eat well on weeks when there's no time to cook.

Add, Don't Subtract

Talking Head · Nutrition tip

FORMAT	LENGTH	CHANNEL	DM KEYWORD
Talking Head	25-35 sec	IG Feed + Meta Ads	ADD

01 THE HOOK

“The fastest way to eat better isn't removing foods. It's adding them.”

ALTERNATE HOOKS · TEST THE FIRST 3 SECONDS

“Keep the pizza. Just add this.”
“My clients don't give up their favorite meals. They do this instead.”

02 CORE MESSAGE

Every diet starts with a list of things you can't have. That's why every diet ends.

Try the opposite: keep what you already eat, and add one protein and one fruit or veggie to it.

Pizza night? Add a big side salad. Cereal in the morning? Add Greek yogurt. Pasta? Add chicken and a bag of frozen broccoli.

You end up eating better without feeling like you lost anything, and that's what makes it stick.

I'm Nate, nutrition coach. Nothing is off the table with my clients. We just make the plate work harder.
